

Barbara Hydro Mondstadt'

The Deaconess of the Favonius Church and a shining starlet adored by all. Although the concept of a starlet is rather novel in a city of bards, the people of Mondstadt love Barbara nonetheless. "I owe everything to the city's spirit of freedom" — Barbara, regarding her popularity.

Barbara is the Deaconess of the Church of Favonius, as well as the shining idol of Mondstadt. "The sight of Barbara makes all my problems disappear." This is quite a common saying among the citizens of Mondstadt. In fact, Barbara can do much more than just put people in a better mood: Her healing powers extend to flesh wounds and other physical ailments. Barbara is known to have access to miraculous healing powers through her Hydro Vision. However, Barbara herself knows that the most miraculous magic of all is hard work.
